WESTERN ODISHA FOLKSY RENOVATION COUNCIL, ODISHA

INTRODUCTION (ABOUT US):

The organization **WESTERN ODISHA FOLKSY RENOVATION COUNCIL, ODISHA** is a non-political and non profit making Organisation. It is a proactive organization work for weaker section. It starts its activities from 6 to 7 years in Turekela Block of Bolangir Dist. The organization **WESTERN ODISHA FOLKSY RENOVATION COUNCIL, ODISHA** has been working in the various activities like Health, Education, Socio-economic development, Forest and Environment Protection, and Income Generation Programmes for the downtrodden people of the society. We always believe in equality which can be achieved by empowering people through organization. We facilitate the process by enabling people to be productive and self-reliant.

AREA OF OPERATION:

WESTERN ODISHA FOLKSY RENOVATION COUNCIL, ODISHA is not only confined to Turekela Block of Bolangir District, but also extended to its activities to the nearest Bangomunda Block area of Bolangir District under the K.B.K. Zone. This extension aims at replicate the successful programme the area where the vulnerable families like SC, ST& Others backward.

Considering the emerging need of the situation during the reporting period **WESTERN ODISHA FOLKSYRENOVATION COUNCIL, ODISHA**

concentrated on the following aspects as steps towards its ultimate goal.

FUTURE PLAN:

- ❖ Promotion & management of
- ❖ SHG Capacity building
- ❖ Forest and Environment
- ❖ Legal Aid Consumer
- ❖ Awareness Consultancy & Network
- ❖ Women Development
- ❖ Health & Sanitatio

CAMPS ON AIDS CONTROL:

If we are not concuss about our health in a disciplined manner, then the disease like AIDS will spared all over the country with in a very short period. Then life in the earth will reduced to 40 years only. How to check AIDS have been discussed in details and video shows have been performed to make the women group very much concusses about the harmony of AIDS.

COMMUNITY HEALTH:

A health problem is acute in the areas. Because lack of awareness and of inaccessibility of the interior population to the expensive medicine due to their economic insufficiency. Often they do not go to Hospital, sometimes negligence cost them their lives. The tragic dimension of the tribal health problems especially women and children get aggravated and left unattended. With an emphasis on preventive and curative measures of health needs during the reporting period **WESTERN ODISHA FOLKSY RENOVATION COUNCIL, ODISHA** concentrated more on immediate health needs

along with attempts of health behavioral change among the target population.

AWARENESS ON DRUG DE-ADDICTION:

Misuse of drugs, alcohol, brown sugars, heroines, chorus, opium, ganja etc. has created the bad atmosphere within our society. Most of the Indian population now being influenced by the western culture and became addicted to the above dangerous drugs. To change the addicted patients to de-addicted one Govt. has been Drug De-Addiction centers where the patients are being provided with well treatment regarding the facilities available in various sectors, we taught the addicted patients regarding the use and misuse of drugs on human beings in the camp organized.

SELF HELP GROUPS:

This is the major concern of **WESTERN ODISHA FOLKSY RENOVATION COUNCIL, ODISHA** since its inception. **WESTERN ODISHA FOLKSY RENOVATION COUNCIL, ODISHA** initiated its economic programs with more concentration on women economic empowerment with definite objectives. In its tenure of life it formed and strengthened around fifty groups and approximately 230 nos. of women were involved in it. Promotion of SHGs particularly women groups are leading towards women's economic liberation.

In the process regular meetings have been organized to enhance the membership of the groups. Series of capacity building programs were organized to enhance functional skills of the groups so that they could effectively manage the ventures. Series attempts were made to channelize loan to the groups.

MALARIA ERADICATION AWARENESS CAMP:

Malaria parasites have been spread through the mosquitoes, the awareness camps that have been organized. We educate the people about the preventive majors of the disease. Use of mosquito net, blood examination during any fever, taking malaria preventive does as precautionary measures have been taught during camp.

AWARENESS PROGRAMME:

Independently cultural unit of **WESTERN ODISHA FOLKSY RENOVATION COUNCIL. ODISHA** is constantly organizing various pu and street plays on different identified issues i.e. protection and promotion of forest, SHGs, Mahila

Samities, Panchyat Samiti, Anti liquor, NTFP, literacy etc. the process disseminated forest related laws, rules regulation information to the

community, explained people about the need and importance of saving and collective action, made the people aware of hazardous effect of liquor consumption and its long terms effect on family economy, enhanced knowledge of tribal women on their role and responsibilities / power in Panchyat system, motivation parents to send their children to schools and teachers to deliver their duties regularly. As a result of the above efforts in May program village's women collectively thought against illegal liquor distilleries and decreased liquor consumption in the area. Women of the program area are actively participating in poly/ Gram Sabha and contributing in taking decisions at Panchyat level. Increased attendances in regular and also non-formal schools the program villages have been noticed. Regularized DPs and existing villages level organizations are keep in protection of the forest in the area.

CAMP ON FAMILY WELFARE

To build up a healthy society everybody thinks about a healthy family. These families are to be taken care on the health point of view, so various measures have been taken up by our Govt. to build up a healthy family. The projects like population controls, STD, RTI, RCH, now being implemented in our society but in the villages the people are not aware about his programmes. In order to reach with the people, we organize various camp of family welfare and discussed in details about the various aspects of family health. The problems and solutions have been discussed and teach the women groups of the society regarding the health hazards and its bad impact on their body if they will not concuss.
